ACL : Articles dans des revues internationales ou nationales avec comité de lecture répertoriées par l'AERES ou dans les bases de données internationales (ISI Web of Knowledge, Pub Med...)

Note: Le CeRCA distingue d'une part les ACL dans des revues indexées par l'Institute for Scientific Information (ISI) qui donnent lieu au calcul d'un facteur d'impact (IF), et d'autre part les revues ACL indexées par d'autres bases de données mais dont l'IF n'est pas connu. Ces deux types de publications ACL sont présentées dans les listes ACL1 et ACL2 ci-dessous, respectivement.
