

International Journals (with peer-reviewing) since 2000; * = étudiant encadré en thèse / PhD student under my supervision
November 2019

1. Beauprez, S.A., Blandin, Y., Almecija, Y., & Bidet-Ildei, C. (In press). Physical and observational practices of unusual actions prime action verb processing. *Brain and Cognition*.
2. Decatoire, A., Beauprez, S.A., Pylouster, J., Lacouture, P., Blandin, Y., & Bidet-Ildei, C. (2018). PLAViMoP: How to standardize and simplify the use of point-light displays. *Behavior Research Methods*, 1-24.
3. Massing, M., Blandin, Y., & Panzer, S. (2018). The influence of eye-movements on the development of a movement sequence representation during observational and physical practice. *Acta Psychologica*, 182, 1-8.
4. Massing, M., Blandin, Y., & Panzer, S. (2016). Magnifying visual target information and the role of eye movements in motor sequence learning. *Acta Psychologica*. 163, 59-64.
5. Pharamin, F., Barthes, D., & Blandin, Y. (2016). Apprentissage de la prise de décisions en rugby: rôle des feedbacks vidéo. *STAPS*, 111, 81 - 96.
6. Veiluf, S., Massing, M., Blandin, Y., Leiner, P. & Panzer, S. (2015). The role of eye movements in sequence learning. *Human Movement Science*, 40, 220-236.
7. Boutin, A., Blandin, Y., Massen, C., Heuer, H., & Badets, A. (2014). Conscious awareness of action potentiates sensorimotor learning. *Cognition*, 133, 1-9.
8. Badets, A., Toussaint, L., Blandin, Y., & Bidet-Ildei, C. (2013). Interference effect of body shadow in action control. *Perception*, 42, 873-883.
9. Toussaint, L., & Blandin, Y. (2013). Behavioral evidence for motor imagery ability on position sense improvement following motor imagery practice. *Movement & Sport Sciences – Science & Motricité* 82, 63–68. <http://dx.doi.org/10.1051/sm/2013093>
10. Boutin, A., Panzer, S., & Blandin, Y. (2013). Retrieval practice in motor learning. *Human Movement Science*, 32, 1201-1213. doi.org/10.1016/j.humov.2012.10.002
11. Ellenbürger, T., Panzer, S., Boutin, A., Blandin, Y., Fischer, L., Schrer, J., & Shea, C.H. (2012). Observational training in visual half-fields and the coding of movement sequences. *Human Movement Science*, 31, 1436-1448.
12. Badets, A., Albinet, C.T., & Blandin, Y. (2012). Sensory-based mechanism for delayed motor intention. *Acta Psychologica*, 141, 205–213.
13. Boutin, A., Panzer, S., Salesse, R., & Blandin, Y. (2012). Testing promotes effector transfer. *Acta Psychologica*, 141, 400-407.
14. Ellenbürger, T., Boutin, A., Blandin, Y., Shea, C.H., & Panzer, S. (2012). Scheduling observational and physical practice: Influence on the coding of simple motor sequences. *The Quarterly Journal of Experimental Psychology*, 65, 1260-1273.
15. Toussaint, L., *Caissie, A., & Blandin, Y. (2012). Does spatial ability depend on sensory-specific experience? *Journal of Cognitive Psychology*, 24, 387-394.
16. Badets, A., & Blandin, Y. (2012). Feedback and intention during motor-skill learning: A connection with prospective memory. *Psychological Research*, 76, 601-610.
17. *Boutin, A., Badets, A., Salesse, R., *Fries, U., Panzer, S., & Blandin, Y. (2012). Practice makes transfer of motor skills imperfect. *Psychological Research*, 76, 611-625.

18. Gruetzmacher, N., Panzer, S., Blandin, Y. & Shea, C.H. (2011). Observation and physical practice: Coding of simple motor sequences. *The Quarterly Journal of Experimental Psychology*, *64*, 1111-1123.
19. *Boutin, A., & Blandin, Y. (2010). On the cognitive processes underlying contextual interference: contributions of practice schedule, task similarity and amount of practice. *Human Movement Science*, *29*, 910-920.
20. *Boutin, A., & Blandin, Y. (2010). Cognitive underpinnings of contextual interference during motor learning. *Acta Psychologica*, *135*, 233-239.
21. *Boutin, A., Fries, U., Panzer, S., Shea, C.H., & Blandin, Y. (2010). Role of action observation and action in sequence learning and coding. *Acta Psychologica*, *135*, 240-251.
22. Badets, A., & Blandin, Y. (2010). Feedback schedules for motor-skill learning: the similarities and differences between physical and observational practice. *Journal of Motor Behavior*, *42*, 257-268.
23. Toussaint, L., *Robin, N., Blandin, Y. (2010). On the content of sensorimotor representations after actual and motor imagery practice. *Motor Control*, *14*, 159-175.
24. Toussaint, L., & Blandin, Y. (2010). On the role of imagery modalities on motor learning. *Journal of Sports Sciences*, *5*, 1-8.
25. Blandin, Y., Toussaint, L., & Shea, C.H. (2008). Specificity of Practice: Interaction between concurrent sensory information and terminal feedback. *Journal of Experimental Psychology: Learning, Memory and Cognition*, *34*, 994-1000.
26. Bouquet C.A., Gaurier V., Shipley T., Toussaint L., & Blandin, Y. (2007). Influence of the perception of biological or non-biological motion observation on movement execution. *Journal of Sport Science*, *25*, 519-530.
27. *Robin, N., Dominique, L., Toussaint, L., Blandin, Y., Guillot, A., & Le Her, M. (2007). Effects of motor imagery training on service return accuracy in tennis: the role of imagery ability. *International Journal of Sport and Exercise Psychology*, *5*, 175-186.
28. *Badets, A., Blandin, Y., & Shea, C.H. (2006). Intention in motor learning through observation. *The Quarterly Journal of Experimental Psychology*, *59*, 377-386.
29. *Badets, A., Blandin, Y., Bouquet, C., & Shea, C.H. (2006). The intention superiority effect in motor skill learning. *Journal of Experimental Psychology: Learning, Memory and Cognition*, *32*, 491-505.
30. *Badets, A., Blandin, Y., Wright, D., & Shea, C.H. (2006). Error detection processes during observational learning. *Research Quarterly for Exercise and Sport*, *77*, 177-184.
31. *Badets, A., & Blandin, Y. (2005). Observational learning: Effects of bandwidth knowledge of results. *Journal of Motor Behavior*, *37*, 211-216.
32. Robin, C., Toussaint, L., Blandin, Y., & Proteau, L. (2005). Specificity of learning in a video-aiming task: modifying the salience of dynamic visual cues. *Journal of Motor Behavior*, *37*, 367-376.
33. *Badets, A., & Blandin, Y. (2004). The role of knowledge of results frequency in learning through observation. *Journal of Motor Behavior*, *36*, 62-70.
34. Robin, C., Toussaint, L., Blandin, Y., & Vinter, A. (2004). Sensory integration in the learning of aiming toward "self-defined" targets. *Research Quarterly for Exercise and Sport*, *75*, 381-387.
35. Blandin, Y. (2002). L'apprentissage par observation d'habiletés motrices: Un processus d'apprentissage spécifique? *L'Année Psychologique*, *102*, 523-554.

36. Audiffren, M., & Blandin, Y. (2001). Evolution des effets d'une préparation motrice induite par amorçage en fonction de la quantité de pratique. *Revue Canadienne de Psychologie Expérimentale*, 55, 311-317.
37. Blandin, Y., & Proteau, L. (2000). On the cognitive basis of observational learning: Development of mechanisms for the detection and correction of errors. *The Quarterly Journal of Experimental Psychology*, 53(A), 846-867.

Principaux Résumés publiés (depuis 2000)
